December 19th, 2010

Dear David,

On behalf of the Board of the Egyptian Society for Developing Skills of Children with Special Needs (ADVANCE), I am writing to thank you for a job very well done in conducting the 2-days workshop here in Cairo during 10-11 November, 2010. We hope you enjoyed conducting the workshops as much as the participants have enjoyed attending it.

Participants all learned a great deal over the two days that you were with them. You are very knowledgeable about the learning and perception of children with Autism Spectrum Disorders (ASD) in addition to physical education instruction, and were very willing to share this knowledge with them. Your presentation and training skills were excellent. The information you provided them with was most relevant to their work and we are sure the participants will learn to better use this knowledge when working with students with ASD.

The evaluation comments submitted by each participant at the end of the workshop were extremely positive and enthusiastic. There are many things they appreciated: your appreciation of them as specialists and colleagues and adults; the amount of information you conveyed and the friendly, funny, personal, interactive way you presented it; the way you responded to questions and changes; the depth of your own knowledge and experience; how you answered their questions-and how you asked your own.

Your interest and support to our Adaptive Physical Education Program is most appreciated and we thank you for the material you donated to the ADVANCE Program.

Let me also convey that the members of the Arab Network for Autism (ANA), who had also attended your presentation during their Fifth Meeting in Cairo, have all found your presentation and presence to be very rewarding and successful.

It is with the highest praise that I write this letter of recommendation and thanks to you. You have the ability to train and teach, even though this workshop was one of the most difficult to pull together due to the cultural and language differences and having to allow for translations.

It was a pleasure working with you. I look forward to working with you again.

Yours truly,
Maha Helali
